***** Rabies Notice *****
Moore County

ANIMAL: Skunk

POSITIVE RABIES REPORT DATE: 1-31-2019

LOCATION: City of Dumas

DESCRIPTION: Animal Control received several calls Sunday between 11 am and 1 pm about a skunk wandering around, acting “drunk”. When the ACO tried to capture it, the skunk charged at the officer. Once secured by the catchpole, the skunk twisted and rolled while biting at the pole. It was placed into a trap where it repeatedly rammed against the door until it was euthanized. It never sprayed. The lab reported it as positive for rabies.

HUMAN EXPOSURES: 0
